Common sources of alternative evidence

Identify relevant area of evidence from across all content/units taught. Locate evidence 'type' and add a brief description including the unit or component number and title as well as the learning aim if appropriate. Evaluate the quality of the evidence.

Skill/knowledge/ discipline/area of evidence	Partially completed internal assessments	Completed internal and/or external assessment	Mock examinations (based on past papers, or centre-devised tests)	Informal assessments	Evidence from specialist teachers and other educational professionals such as special education needs coordinators (SENCO) who have worked with the learner where appropriate.	Project work	Recordings (e.g. of practical performance)	Evidence from work experience (where relevant to the qualification)	Tracker of achievement and attainment over the course (this cannot be used in isolation, as by itself it would not be sufficient evidence)	Witness testimonies or teacher observation records when used in conjunction with other forms of evidence	Classwork or homework assignments or assessments	Centre Assessment Grades from June 2020 (CAGs)	Other	Evidence collected by (name / date)

Outline the rationale for the choice of assessment evidence used, i.e. why the evidence above was used and how it supported the grading decision:-

Students fully completed Component 1 LAA & LAB and Component 2 LAA & LAB internal assessments. Students were awarded CAG grades for C3. Students completed 2 mini assessments for Component 3 in May 2021. In line with exam board directives, the students continued with their course, and the work was marked according to the assessment criteria for each unit. We used Pearson assignment briefs for all internally assessed units of work. Component 2 work was standard verified by Pearson, all work internally verified following BTEC guidance.
