Common sources of alternative evidence

Identify relevant area of evidence from across all content/units taught. Locate evidence 'type' and add a brief description including the unit or component number and title as well as the learning aim if appropriate. Evaluate the quality of the evidence.

Skill/knowledge/ discipline/area of evidence	Partially completed internal assessments	Completed internal and/or external assessment	Mock examinations (based on past papers, or centre devised tests)	Informal assessments	Evidence from specialist teachers and other educational professionals such as special education needs coordinators (SENCO) who have worked with the learner where appropriate.	Project work	Recordings (e.g. of practical performance)	Evidence from work experience (where relevant to the qualification)	Tracker of achievement and attainment over the course (this cannot be used in isolation, as by itself it would not be sufficient evidence)	Witness testimonies or teacher observation records when used in conjunction with other forms of evidence	Classwork or homework assignments or assessments	Centre Assessment Grades from June 2020 (CAGs)	Other	Evidence collected by (name / date)

Outline the rationale for the choice of assessment evidence used, i.e. why the evidence above was used and how it supported the grading decision:-

Students completed evidence towards 7 units of work across year 12 and 13. 3 units were

externally assessed, and 4 units internally assessed. External assessments took place as normal January 2020 and January 2021. In line with exam board directives, the students continued with their course, and the work was marked according to the assessment criteria for each unit. We used Pearson assignment briefs for all internally assessed units of work. Due to lockdown and lack of time, unit 8 assignments were not completed as per Pearson guidance. Unit 7 was standard verified by Pearson. All work internally verified using BTEC guidance.
